Forecast for Saturday 12 Nov 2022

Weather: Dry in the early hours with clear periods before thickening cloud spreads north later in the night along with some patchy rain. The morning will be cloudy with rain extending north for a time. Dry in the afternoon although still with a fair amount of cloud, perhaps some brighter breaks the Ochils, Deeside and more eastern Angus hills.

Chance of cloud-free hill tops above 800m: 40%, best chance of clear summits will be across Upper Deeside

Low Cloud and visibility: Widespread cloud down to 400 to 700 metres spreading across all areas through the morning. This lingering through the afternoon but some breaks developing at times, especially across Upper Deeside given some shelter.

Met Office Aberdeen Meteorologist's View
Nothing to add

Forecast for Sunday 13 Nov 2022
Weather: All ranges will have a dry and very mild day. Low cloud expected quite widely in the morning, this thinning through the afternoon to allow some brightness across western and northern Perthshire, the Ochils and Upper Deeside. Elsewhere low cloud likely remain rather widespread

Maximum wind: Southeasterly 25 to 35 mph on the tops

Chance of cloud-free hill tops above 800m: 50%

Low Cloud and visibility: Rather hazy at lower levels but higher summits mostly clear. Areas of low cloud around 300 to 600 metres during the day, but this mostly thin in nature with lowest bases in the east.

Temperature: **Glens:** Plus 7 rising to 15 Celsius
At 800m: Plus 10 Celsius
Freezing level: Above summits
